Scottish Organic Meat & Poultry

Each year, there is a real shortage of Scottish organic turkeys so we feel really lucky to have ours again from Newmiln Farm, Perthshire, raised by Sascha & Hugh Grierson. This year all the organic turkeys are **slow growing Devon Bronzes** and will be 21-22 weeks by Christmas. The turkeys having been grazing on organic grass, are reared in very small groups, and are encouraged to range widely and wildly over the fields, giving them a fantastic taste and texture. HOWEVER – please note that they are very limited in number and size. The juicy roasts, chickens, bacon and trimmings also come from Newmiln Farm. The pork roasts, sweet tasting bacon and sausage meat are from black-coloured Berkshire rare breed pigs. All the meat and poultry, since fresh, can be frozen. All Soil Association certified organic.

Free Range Poultry & Game*

The free range turkeys, ducks and geese from Susan and Roger at Gartmorn Farm, Clackmannanshire are truly fantastically tasty, and are excellent value as always. The bronze-feathered free range turkeys are true roam-about turkeys, reared with integrity. Have a whole bird, or you can opt for a turkey crown if you don't want leftovers for ever more... We only reserve geese as we receive the orders, so if you *know* you would like a goose for Christmas, do let us know as soon as you can so that we can get that organised for you.

As an alternative, or for Boxing Day or New Year, we have both red legged partridge known locally as 'Frenchies', and pheasant, well-fed on local West Lothian estates. We decided to reduce the price on these and offer them out at a special price to encourage you to give them a try if you haven't already. We hold stocks throughout the year. Both will be available as whole plucked birds, gutted, and vac packed and frozen. The pheasant breast fillets are vac packed in pairs. The partridge has a wonderfully delicate flavour (we recommend one per person) and the pheasant are young, tender and tasty. Shot in November and frozen within a day. Beware of shot!

Saucy.....Farmhouse Relishes & Preserves

This year, we have been able to make all our own relishes and preserves to our own recipes (remember we were the winners of the Organic Food Awards with our Seville marmalade a few years ago, so you can be sure you will love them!!).

Once again we have our very own Cranberry sauce made with only the tastiest of organic cranberries and a splash of extra-smooth organic port.....mmm, and our wonderful Bramley Apple Sauce – apples from the organic orchard at Bonnytoun - perfect with a roast, hot or cold. We can't survive the year without redcurrant jelly which is a must for anything 'gamey' (redcurrants from our friend Donnie Macleod in Inverness-shire). NB although *all* the preserves are made with organically certified fruit and veg, some of the additions (like smoked paprika) are not! We therefore haven't used the organic stamp on these items, and are called 'Farmhouse' instead of 'Organic'.
